<b>Date of Exam</b>	

Dear Provider,

Because of the inherent danger involved with being a fire fighter, including exposure to hazardous agents, great physical exertion and psychological fatigue potential, the SFFHCT promotes and highly incentivizes its members to have an annual medical evaluation. While we have a contractual relationship with Vera Whole Health at Station 2 to perform this exam, we do allow our members to have the exam performed by his/her own provider. When a fire fighter elects this option, we ask that the provider verifies the exam was completed by signing this verification form and either returning it to your patient (our member) or returning directly to the Trust Office via email, mail, or fax at the contact information above.

**My signature below confirms that this member did receive a physical from me and that it included the examinations, tests, and labs indicated above.**
